HOW IT WORKS

- 12 questions, 20 seconds each. Faster correct answers score more points.
- Some questions hide a number: $7 \times ? = 42$. Think: what times 7 makes 42?
- No calculators. Cameras on. We trust you.

PRACTICE TIPS

- Practise one row a day, out loud.
- For 11 to 20, split it up: $17 \times 8 = (10 \times 8) + (7 \times 8) = 80 + 56 = 136$.
- Use the chart to check yourself, not to read from.
